

Moultonborough Conservation Commission Meeting Agenda Notes
Friday, August 14, 2015
10 AM
Intersection of Wentworth Shore Rd & Shaker Jerry Rd

Present: Bill Gassman, Brian Sanford, Marie Samaha
Public Present: Kathy Falwell

Site visit – proposal for acquisition of lot to reconstruct the intersection

The meeting began at 10:00 am. Conservation Commission members viewed the site of the proposed change to the intersection of Wentworth Road and Shaker Jerry Road. Members suggest that Best Management Practices be used to control runoff when reconstructing the portion of Shaker Jerry Road going west. Currently there is evidence that road runoff is close to a wetland area to the left of Shaker Jerry Road. Using erosion control procedures during the reconstruction and constructing BMP drainage ditches for the road should address the problem of runoff.

The meeting adjourned at 10:45.

Marie Samaha
Chair, Conservation Commission
