

SELECTMEN'S MEETING

December 23, 1976

Present were Roland Sallada, Thomas Mansfield, Oliver Andrews and Betty Hooper.

Previous to the meeting, the Selectmen inspected the Charles Houghton property.

Mr. Douglas Engel came in to check his assessment.

Mr. Richard Turosh came to discuss his acreage with the Selectmen. There seemed to be a discrepancy in the boundaries.

Mr. Leon Daniels came in to apply for a new form (required by State Law) to file for a blasting permit. From now on, a blasting permit must be made out in the company name and not to an individual.

Stephen Spielman came in to discuss the resignation of Carolyn Todd from her position as Library Trustee. He recommended the names of Gary Luneau and Charles Wason. He feels there should be six trustees.

Roland gave Mr. Spielman details on the Milton Elliott gravel hearing.

The fence between the Leon Daniels land and the new fire house was discussed. Mr. Daniels has refused to remove his fence between what he still considers his land and the new fire house. The Selectmen have asked Mr. Spielman to look into this land dispute and check back to them with whatever he finds. Steve feels a title search should be conducted. He asked to make a preliminary examination of options.

He made note of his change of address:

O'Neill Backus Spielman Little

116 Lowell Street

Manchester, N. H. Tel: 668-7272

He reported the case of Francis Allen v. Albert LaMarche and Town of New Boston never reached a hearing. The case was defaulted.

Mr. Frederic Cutting came in to get an estimate for his future taxes on his new home. He applied for a drive-way permit.

James Dodge came in to report a beaver dam on the town wood lot is killing all the trees in the area. He offered to cut down the dead-wood for his use. Roland feels this is a decision for the Forestry Committee.

Public Official Liability insurance coverage for the Selectmen was contemplated.
