

SELECTMEN'S MEETING

April 28, 1977

Present were Oliver Andrews and Betty Hooper.

Richard Lariviere picked up his building permit.

Walter and Lucie Wickerman came in to see why the Selectmen have not taken care of their leach field system. They stated that the damage from road drainage had been reported over a month ago and so far nothing has been done.

Mr. Wickerman said he now plans to have the work done and bill the Town or press charges.
