

SPECIAL MEETING

October 11, 1977

Present were Thomas Mansfield, Oliver Andrews, Roland Sallada and Betty Hooper.

The Selectmen met with George Houghton, Town dump custodian, at 11:00 am to discuss a new working system at the dump.

Mr. Houghton suggested closing both dumps with two cables across each opening.

He also suggested opening the dump only on Tuesday and Saturday of each week from 9:00 am to 4:00 pm.

The Court Order restricts burning of the dump to one day a week, and Mr. Houghton preferred to burn on a day which is not open to the public.

It was decided the PLASTIC TECHNIQUES would use the lower dump, and also the disposal of mattresses and tires, etc. The lower dump will be locked at all times with the key to be held by the custodian and turned over to anyone needing entrance.

Mr. Andrews and Mr. Sallada will meet later this afternoon with George Houghton and Road Agent, Alms Chancey, at the dump site to make final plans for the running of the dump.

Stickers will be issued to residents <sup>and Property Owners</sup> of New Boston on request and this operation will be handled from the Town Office.

Mr. Houghton will be present at the dump all during the hours that it is open.
