

SPECIAL MEETING

March 26, 1978

The three Selectmen met informally with Leon & Ella Daniels at 9:15 am at the Selectmen's Office to try to iron out some details on the agreement on the strip of land bordering the fire station.

They complained that members of the fire department had removed more of their fence than was authorized and that there is a lot trash around the building extending on their property.

The Selectmen promised that when the ground is clear from snow and when the road to the new dump location is made passable (which must take priority) their efforts will be directed to the landscaping, tarring and fence on the land in dispute. Ella asked who would do the work.

Roland said the Road Agent would do the work under the supervision of the Selectmen.

A letter was mailed to Fire Chief Barss advising the fire department of the conditions of the agreement made between Mr. & Mrs. Daniels and Board of Selectmen.
