

TOWN HALL RENOVATION COMMITTEE MEETING MINUTES

June 2014

Just to recap our last meeting, especially for Etoile, so we all know the schedule and next steps.

With our current funding of \$20,000, we cannot get full construction drawings. We will, instead, work to further tighten the project scope and the overall budget. The goal will be to see a town vote on bonding the full amount for the project in May. On the list to do between now and then:

1. Selectboard to hold public meetings at their normal meetings to define the rehabilitation project "option 2 (4 offices downstairs and use of meeting room upstairs).
2. Catherine and Rodney Investigate unknown building elements and historic restoration components so we know the scope more precisely
3. Patty to enlist Jim Verra for site plan
4. Work out plan for archive and evidence room

Thank you, Rodney
