603-746-8709 tel

603-746-4630 fax

603-345-5038 cell

Met at the Town Hall parking lot @ 7:30 a.m.

Mark Fuller spoke about what was done at the Highway Dept. in order to set up with a generator that also fed the Transfer Station.

Everyone looked at the Service Entrances at the Fire Station and Police Station.
Selectman Ron Gehl stopped by for a few minutes while at the Fire Station.

Mr. Gilbert would like to see the locked disconnect at the Fire Station.

Peter Rhoades will have electric bills faxed to Mr. Gilbert from each building (Fire Station, Police Station, and Town Hall) so he can calculate load demand. This will also help him determine if two generators would be more efficient than one large one that would need a lot of conduit and wire to feed other buildings. This information will be forwarded to Mike Clarke.

Notes submitted by,

David A. Bickford, 183 Brackett Road, New Durham, NH 03855, (603) 859-7899,
