

**NEWTOWN BOARD OF EDUCATION  
MONTHLY FINANCIAL REPORT  
NOVEMBER 30, 2014**

**SUMMARY**

The fifth financial report of the 2014-15 fiscal year to date is attached. In the month of November, the Board of Education spent approximately \$5M; \$3.6M on salaries, \$1.4M for all other objects.

This report includes “Anticipated Obligations” which reflect the best current estimate for expenditures beyond active encumbrance. At this time the entries included here represent the estimated amounts for the offsetting receipts related to the excess cost and agency placement grants, based on the first estimate of what the districts’ expected expenses are, and that have been reported to the State on December 1<sup>st</sup>. The estimate is based on a reimbursement rate of 75% which is subject to change.

In many cases this column reflects the remaining budget balance, as expenditures are planned at this level. As further analysis and information becomes available these obligations will reflect more current estimates. The ‘Projected Balance’ is the result of the balance adjusted by the anticipated obligation. This reporting reflects the results of the grants which were estimated last month and will continue to be embedded in these obligations moving forward.

Following the monthly report is a new two page report that includes the excess cost and agency placement ‘Offsetting Revenue’. This is formatted in the same fashion as the financial with only the active object categories where the receipts are listed. The ‘Budget’ represents that which you saw last month in the anticipated column and the ‘Expected’ now represents that which was filed with the State on December 1<sup>st</sup>. The ‘Balance’ here indicates the differences between what was budgeted and what the current reality appears to be. You can note that all the ‘Expected Revenue’ is much less than what was budgeted last year with the exception of the Out of District tuition. This latter amount, based on more unbudgeted tuition placements, helps cover the reduced amounts in all other accounts with an overall estimated excess of \$14,353.

All of these amounts differ because our per pupil expenditure has risen significantly due to the federal grants we received, that have been added to our overall annual expenditures, along with the declining enrollment. The additional amount included in our last years’ end of year report included over \$2.7M in federal support related to the tragedy. The effect of this is that the excess cost threshold has risen to \$67,137 from \$60,456 and the per pupil cost for agency placed children is now \$14,919 versus \$13,435. When the first installment of this grant is ‘Received’ it will be included in the column so labeled with the balance to be received noted in the ‘Expected’ column. The balance will stay the same unless the percentage paid by the State changes.

All the main object accounts remain in a positive balance position for this month with the exception of ‘Other Purchased Services’ which includes the Out of District Tuition account. The excess cost will cover this shortfall.

There are transfers recommended this month included in an attached schedule following the offsetting revenue. This format was recommended by the Finance Sub Committee of the Board.

This budget is extremely lean and needs to be carefully monitored. Forecasting anticipated obligations will be ongoing from now on and will modify the balances required to end the fiscal year within the allotted budget.

### **EXPENSE CATEGORY CONDITIONS**

#### **100 SALARIES**

The total salary budget is expected to be adequate to continue all the planned services for the balance of the year with a slight positive balance in certified salaries. In non-certified there is a shortage in Para Educators. Further needs since September have arisen due to significant behavioral needs in classrooms, new students moving into district and newly identified students (total of 48 between Oct. 1<sup>st</sup> 2013-Oct. 1<sup>st</sup> 2014 specifically 20 new students identified school year to date.) Playing into this Para need also is the fact that last years' budget was moving through the process while additional student needs were being met. Those needs continued without a concurrent budgetary adjustments.

#### **200 EMPLOYEE BENEFITS**

Current estimates are on track with a balance in medical due to a new provider for a lower cost for LTD insurance. Also the EAP (Employee Assistance Plan) and Worker's Compensations are tracking well.

#### **300 PROFESSIONAL SERVICES**

As predicted the increased legal activity has exceeded the districts' legal line. Outside evaluations are increasing at a steady rate so this object will be in need shortly.

#### **400 PURCHASED PROPERTY SERVICES**

This group of accounts provides services necessary to keep the buildings running, along with classrooms repairs and rentals. Several emergency repairs occurred at the schools including the following: Hawley - alarm repairs \$1,275; Sandy Hook School - intercom repair \$934, gym lighting \$819; Middle Gate - telephone repairs \$575, paging system \$857; Head O'Meadow - replace spill box on tank \$4,155, roof leaks \$2,167; Reed - fire doors \$1,500, playground equipment repair \$2,095, sidewalk repairs \$1,660; Middle School - leaking boiler \$4,600, gym backstops \$770; High School - tree removal \$1,200.

## **500 OTHER PURCHASED SERVICES**

Insurance is \$5,548 over budget. With excess cost the Out of District Tuition account will be back in the black. This will need to be monitored should additional placements occur throughout the remainder of the year.

## **600 SUPPLIES**

This group of accounts includes the electricity, gas, and fuel accounts which will be continually reviewed and revised as we participate in the heating season.

The district's 2<sup>nd</sup> year electricity supply account with Direct Energy at 7.769 cents per kilowatt expired on December 1<sup>st</sup>. We have secured an alternate provider Constellation, for the next eleven months at a rate of 9.680 cents per kilowatt. This is significantly below the estimated CL&P rate at 12.629 cents per kilowatt. At the new contract rate with Constellation our expected over expenditure will be in the area of \$75,000, far less than the previously feared \$178,133 to \$263,861. This contract will put us on track with the regional consortium and allow us membership in a very large group for a subsequent contract next November.

We do not have enough information on natural gas to make a reliable prediction at this time. Recent indicators however have shown moderating prices due to revised short term coldness forecasts.

## **700 PROPERTY**

Current estimates continue to be on track with no change.

## **800 MISCELLANOUS**

Current estimates continue to be on track with no change.

The budget will continue to be carefully monitored as it is very tight and any subsequent issues or opportunities will be presented as necessary.

## **REVENUE**

No revenues were received during the month of November.

Ron Bienkowski  
Director of Business  
December 11, 2014

## **TERMS AND DEFINITIONS**

The Newtown Board of Education's Monthly Financial Report provides summary financial information in the following areas:

- Object Code – a service or commodity obtained as the result of a specific expenditure defined by eight categories: Salaries, Employee Benefits, Professional Services, Purchased Property Services, Other Purchased Services, Supplies, Property, and Miscellaneous.
- Expense Category – further defines the type of expense by Object Code
- Expended 2013-14 – actual (unaudited) expenditures of the prior fiscal year (for comparison purposes)
- Approved Budget – indicates the town approved financial plan used by the school district to achieve its goals and objectives.
- YTD Transfers - identified specific cross object codes requiring adjustments to provide adequate funding for the fiscal period. This includes all transfers made to date.
- Current Transfers – identifies the recommended cross object codes for current month action. (No current transfers indicated)
- Current Budget – adjusts the Approved Budget calculating adjustments (+ or -) from transfers to the identified object codes.
- Year-To-Date Expended – indicates the actual amount of cumulative expenditures processed by the school district through the month-end date indicated on the monthly budget summary report.
- Encumbered – indicates approved financial obligations of the school district as a result of employee salary contracts, purchasing agreements, purchase orders, or other identified obligations not processed for payment by the date indicated on the monthly budget summary report.
- Balance – calculates object code account balances, subtracting expenditures and encumbrances from the current budget amount, indicating unobligated balances or shortages.
- Anticipated Obligation – is a column which provides a method to forecast expense category fund balances that have not been approved via an encumbrance, but are anticipated to be expended or remain with an account balance to maintain the overall budget funding level. Receivable revenue (i.e., grants) are now included in this column which has the effect of netting the expected expenditure.

- Projected Balance – calculates the object code balances subtracting the Anticipated Obligations. These balances will move up and down as information is known and or decisions are anticipated or made about current and projected needs of the district.

The monthly budget summary report also provides financial information on the State of Connecticut grant reimbursement programs (Excess Cost and Agency Placement Grants and Magnet Grant Transportation). These reimbursement grants/programs are used to supplement local school district budget programs as follows:

Excess Cost Grant – this State of Connecticut reimbursement grant is used to support local school districts for education costs of identified special education students whose annual education costs exceed local prior year per pupil expenditure by 4 ½. Students placed by the Department of Child and Family services (DCF) are reimbursed after the school district has meet the prior year's per pupil expenditure. School districts report these costs annually in December and March of each fiscal year. State of Connecticut grant calculations are determined by reimbursing eligible costs (60%-100%) based on the SDE grant allocation and all other town submittals. Current year receipts results from the state reporting done in December. We receive notice of what we are eligible for in early April.

Magnet Transportation Grant – provides reimbursement of \$1,300 for local students attending approved Magnet school programs. The budgeted grant is \$62,400 for this year while the expected receipt is now \$67,600.

The last portion of the monthly budget summary reports school generated revenue fees that are anticipated revenue to the Town of Newtown, Fees include:

- High school fees for three identified programs with the highest amount of fees anticipated from the high school sports participation fees.
- Building related fees for the use of the high school pool facility, and
- Miscellaneous fees.
