Subject: Speed Limit Sign Plan Progress Report

Sgt Vanghele,

As per our Speed Limit Sign Plan we have completed Phase 1 and have begun Phase 2. Below is a summary of our overall progress.

Phase 1:

12/2009 A review of all roadways that currently have STC approval

01/2010 A work order was submitted to Public Works to address the sign issues found during this review.

Phase 2:

A new and updated Town wide road list has been created. Each road was given a priority level and grouped in there prospective priority level, i.e.; priority 1 High, Priority 2 Elevated, 3 Moderate and 4 Low. As of this date Ofc Ketchum and I have been working with the GIS/IT department regarding the mapping/inventory of all speed limit signs and roadways without a STC approved speed limit. We have completed all the priority 1 and 2 level roads, approx 37 roadways. We have competed two applications which include covers the priority 1 roads. We will be submitting it to you on Monday so that it can be pushed up the chain to be signed off at the next police commission meeting. Once signed/approved by the Traffic Commission/Police Commission it will then be forwarded to the State DOT for approval.

We are already working on the Priority 3 roads and the application(s) to cover the Phase 2 roadways.

NOTE:

We have been in contact with James M. Jurczyk who is the State DOT Transportation Supervising Engineer. He was made aware of our plan and furnished us with detailed instructions and guidelines of which we are following with respect to this plan.

David Kullgren #072
