North Hampton Water Commission Agenda  
March 27, 2012 - 7:00 p.m.  
Heritage Conference Room  
(Old) Town Office, 237 Atlantic Avenue

1. Call to Order
2. Approve Minutes of October 26, 2011
3. Aquarion representatives will present the proposed capital budget for water system maintenance/ improvements. The budget will be discussed at the next PUC WICA meeting.

Commission Co-Chair Landman, and attorney John Ratigan, will attend the PUC WICA meeting.

The North Hampton Water Commission proposed a capital equipment item: permanent, onsite generators that would improve public safety in the instance of such power outages. Fire Chief Cote reported that it took several days to procure the necessary portable generators during the 4 day power outage in 2009.

Aquarion will update the Commission on how they will have sufficient electric generators that will supply water pressures that will be adequate to provide sufficient water flows for fire suppression and general health and safety of the community.

The Commission had requested that Aquarion color-code the fire hydrants to reflect the fire flows that hydrant testing indicates each hydrant can be expected to yield. What is the status of this item?

4. Other Business
5. Adjournment
