Responded for a report of a possible burglary in progress. Caller reported hearing a door open and then her alarm going off. Upon arrival, checked the grounds, and all possible entrances to the residence. The grounds were clear, however a window was located that wasn't secure and was slightly open. The rest of the residence was secure. Caller stated she didn't actually hear a door open, just the "chime" that the alarm system sets off when a door or window is opened. Alarm panel showed "garage door". Garage was secure. Believe the unsecured window to be the cause of the alarm. Advised the caller to contact the alarm company and tell them

what happened, and to call the Police again if it happened again. Cleared. Greenland and Rye Police also responded to assist.
