Citizens Comments:

Marc Tate reports on Trails Has a project outline Trail Identification Project. He would like us to identify Trails and give him the information to apply to the G.P.S. Pat will work on maps from N.C. and L.A. and Avalonia.

Vilma Gregoropolous: She went through the PCRL Draft she added her additions and or suggestions and asked for clarifications on Focus Areas. She would like the Maps to support our Recommendations. The PCRL will be going forward at the Feb. 5, 2009 meeting of the P&Z. We are all encouraged to attend.

Officer and Committee Reports:

Bob on Problem parcels gave a handout with the latest developments.
Old Business:

Warren discussed the meeting with State about the Schwitzer prop. It was a favorable meeting. Now we will need to make out the application.

New Business:

Fred discussed an application for a grant for technical assistance in promoting agriculture in 5 communities. Perhaps identifying all farms in North Stonington and finding ways to promote them.

Dick on the watershed plan. Also the acquisition of prop. Around Fair Grounds to form a greenway to the Seaport prop.
