**Cc:** "John W. Coderre" <jcoderre@town.northborough.ma.us>, Dawn Rand <drand@town.northborough.ma.us>, Fran Bakstran <fbakstran@town.northborough.ma.us>, Bill August <BillAugustUSA@aol.com>  
**Subject:** Northborough "Cable" committee 4/7/10 meeting summary

### **1- Participants:**

- Jim Ares
- Kathy Dalgliesh
- Bruce DeGraff
- Jim Murphy
- Dick Swee
  
- Bruce DeGraaf - new member
  
- Kevin Whittman resigned

### **2- Google High-Speed network Proposal ( see Google WEB page for background <http://www.google.com/appserve/fiberrfi> )**

Bruce DeGraaf had submitted a response to Google as an individual on behalf of Northborough.

A confirmation from Google was received (confirmation code aghmaWJlcnJmaXITCxiLQXBwbGljYXRpb24Yxu99DA)

No new action on this and with the large number of towns submitting to Google, we don't expect to win this.

### **3- Charter and Verizon Payment Reconciliation - this is still an issue**

Reconciliation of payments to Charter and Verizon is still in discussion. It is an ongoing issue based on different interpretations of language in the Charter contract. Expectations by Charter to get repayment from the town are not consistent with our contract language. In addition, Verizon does not want to issue rebates to customers.

### **4- Verizon Installations Status**

Verizon has completed approximately 80% of the households with about 1050 left to complete.

## **5- Special thanks to Jeff Junker**

for his help with equipment installation at the new Senior Center.

Dick Swee  
Chairman
