### **Public Hearing regarding the demolition permit for 518 Green St.**

The issuance of a demolition permit by the town of Northborough requires a review by the Historic Commission when the property is older than 100 years. Per the town demolition by-law, the Commission must hold a public hearing within 30 days of our notification of a demolition permit application regarding properties older than 100 years (section 2-36-03). The purpose of this public hearing is to collect additional Historical and Architectural information regarding the property.

This information will be used by the Historical Commission to determine if the 180 day demolition delay should be continued for this property.
