2. New Business Topics:

a. Feasibility Study in progress:

TOWN OF NORTHBOROUGH INTERIM DRAFT PLAN

Sustainable Energy Developments, Inc. (SED) has developed a scope of works for an interim draft report for the Town of Northborough Wind Turbine Feasibility Study. This interim draft report will present the findings of key project characteristics necessary to gain stakeholder support for a viable wind project in the Town of Northborough. This interim draft will focus on presenting preliminary economics for the numerous development options that exist for the Town's project so that future Feasibility Study efforts can be focused on one or more development options that can be broadly supported by the community. This approach will seek input from the Town, the Wind Turbine Committee and the Mass CEC that will represent workable solutions for the Town to develop a project.
