Summer 2018 Community Service Programs for kids entering grades 7 – 12

Two fabulous projects are offered again this summer. Each 4-day project is a great way for students to meet their school's community service requirements while having fun, and learning about needs and resources in their hometown in two critical areas. Cost is \$50/project; payment and permission slips due no later than June 1st. Please note the following with respect to registration cancellations: \$15 administrative fee applies if cancelled 2 weeks before start of Project; no refund if cancelled 1 week before start of Project.

Hunger Awareness Project

Teen volunteers will:

- Learn about hunger across the world and right here in Old Saybrook at the Shoreline Soup Kitchen.
- Tend the gardens, harvest crops and prepare produce for the Shoreline Soup Kitchen's grocery distribution and meal sites.
- After planning, cooking and serving the meal to our "guests" you will have nourished both the mind and bodies of people in our own community.

July 9– 12: 10am until 2pm

Environmental Stewardship Project PROGRAM IS FULL

Through this project teens will:

- Discover the Long Island Sound Watershed's fragile ecosystem.
- Be immersed in the complex and intriguing world of recycling.
- Investigate and address non-native invasive plant species that threaten our natural habitat.

July 16-19: 10am until 2pm
