To: Planning Commission Old Saybrook

Re: Preserve

I am opposed to the development of the Preserve because it is our last large plot of land that we can bequeath to the next generations.

The road system will be a drain on the town budget if all or any roads are accepted by the town.

The traffic on Rte 153 in Essex & Westbrook and on the 3 north south roads in old Saybrook - Ingham Hill, Putnam Road, and Schoolhouse Road will be unmanageable.

The use of water has not been addressed - to my knowledge. If the Exchange Pond is dry, what happens when the golf course - proposed - needs water?

Respectfully,

Jean T Castagno
