PLANNING
COMMISSION
EXHIBIT # ~~3~~
62

January 6, 2011

The Planning Commission
Old Saybrook
CT 06475

Dear Sirs:

Last evening we attending your hearing on the Preserve.
It got late and those long suffering souls who attended to show
their displeasure with this new Preserve plan had suffered
enough so we did not attempt to speak. However, we do want
our voices heard.

What is the difference ? River Sound has just reconfigured
the original plan. It is still the same amount of land, the same number of
houses, the same amount of people, the same amount of building, the same
amount of garbage, the same amount of runoff & septic effluents, i.e. the
same amount of problems.

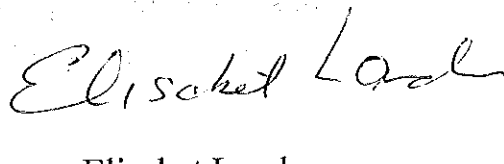

It was bad for our town before and it is worse now. This new plan
seriously impacts all the citizens of Old Saybrook who live on or near
Ingham Hill Road. It will be a disaster.

Hopefully you will all take Selectman Pease's comments seriously.
A voice of experience. Our town made a tragic error when we did not
procure this property. Please, let's not make it worse.

Sincerely,

Frank Landrey

Elisabet Landrey
