Subject: Letters Dated August 27<sup>th</sup>, 2014 and September 28<sup>th</sup> 2015

Dear Mr. Green,

I appreciate and respect the need for Waterford to be included in discussions as it relates to the conveyance of wastewater and the use of your infrastructure. The WPCA will in conjunction with our First Selectwomen enter into discussions if and when we implement a wastewater management plan involving the transfer of wastewater through East Lyme and Waterford to New London.

We have not implemented a plan or decided to move forward with any project at this time. Any discussion you may be aware of or are having with members of Chartered Beaches from Old Lyme do not involve the town at this stage. When and if the WPCA and our Town agrees to implement a plan or the DEEP asks the WPCA and First Selectwomen to take a role in the negotiations of the multi town transfer of the wastewater, we will contact you. At this juncture there is nothing the WPCA can do nor can we guarantee the town will do anything. As previously stated, we have no order nor any approved plan at this time.

Very truly yours,

*Kurt J Zemba*
