Subject: Meeting November 10, 2015

Good Afternoon Kurt. I regret I can not attend the Water Pollution Control Authority meeting this November 10, 2015. I am attending a Health Training in Torrington, Ct. I am in agreement with Dennis Griese's assessment of the nitrates at Hawks Nest. My references and past investigations indicate background concentrations of .8mg in a non polluted environment. I have skimmed Woodward and Curan's report it looks comprehensive for the existing conditions. Best Regards, John
