

**Town of Oxford  
Thompson Lake Advisory Committee  
Minutes of 07/31/2012**

Members present: Michael Chammings, Barry Jorve, Dan Peaco, Hal Ferguson, Larry Moreau and Peter Laverdiere.

Public present; Tim Tardiff, KC Putman, Scott Bernardy as presenter of report on water level and items to be considered.

The meeting was called to order at 6:05pm by Michael Chammings. .

No action on minutes of previous scheduled due to no action taken.

Michael asked Scott to present his report (copy attached) and we all reviewed the info with interest and questions. There are six recommendations made by the sub-committee that Scott chaired that are clearly laid out at the end of this report.

It was moved by Hal and seconded Barry to approve this report as presented and forward it for consideration by the Oxford BOS. Motion approved by all, in spite of disagreement on timing and water depths.

Then we had a motion by Hal to have a public hearing inviting any and all parties interested from all four towns on water levels and Lake fall draw down timing; this was seconded by Dan. This was approved by all.

Another line of Booms as discussed and we decided that we need a cost estimate and an exact length before we consider further.

The committee as a whole thanked Scott for the in depth report. Michael asked Scott if he could present same to BOS at their meeting on Thursday the 2<sup>nd</sup> of August. Scott agreed to do so.

Meeting adjourned at 7:25 PM.
