A summary of the meeting with Nina Nazarian, Paul Caneen and the Massachusetts Department of Telecommunications and Cable representative was given and discussed.

The CAC had a good faith discussion of both applicant proposals. The discussion centered around what was contained in the applicants final proposals versus subsequent public hearing statements and written clarifications, and whether they constituted a material change from the applicants final proposal.

also discussed and debated.

A motion was made to send the latest draft recommendation letter to attorney William August for further review and edits in light of the MBI letters concerning Comcast and Charter.
