#### 65 **Community Garden Well**

66 Mr. Butler noted the well is currently too far away from the garden to be useful and it is  
67 currently challenging to have the water buffalo filled on a regular basis. Mr. Butler  
68 proposed they put a hose and pump on the well to pump water to the water buffalo.  
69 Members discussed the possible options.

70

71 Mr. Miller suggested having the well recovery tested before putting any work into it. He  
72 suggested talking to a well company to see what they would charge to test the well. Mr.  
73 Butler will contact Faxon to get more information.

74

75 **MOTION:** Mr. Traeger made a motion for Mr. Butler to investigate water pumps for the  
76 community well. Ms. Poulin seconded the motion. All members voted in favor. The  
77 motion passed.

78

87 Butler abstained. The motion passed.
