Special Conditions (use additional paper if necessary)

This application for a permit to alter wetlands under Chapter 131, Section 40, is hereby denied without prejudice for failure to submit the following information:

The applicant has failed to demonstrate to the Department how the proposed project would protect the interests of the Wetlands Protection Act. As stated in the Department's September 20, 1989, letter requesting additional information, the proposal to lower the existing culvert by 2.76 feet would not meet the performance standards imposed for Inland Banks (310 CMR 10.54), Bordering Vegetated Wetlands (310 CMR 10.55), and Land Under Waterbodies and Waterways (310 CMR 10.56). The Department requested the submission of additional information and revised plans on September 20, 1989, and to this date have not received the requested information. Therefore, the Department has denied the proposed project without prejudice for failure to submit the information requested in the Department's September 20, 1989, letter. Please be advised that any new Notice of Intent should include the information specified in the Department's September 20, 1989, letter.
