

cont from C1b which may contain some form of vegetation associated with wetlands. This area is somewhat of a pocket and occasionally although seldom may contain STAGNANT WATER which dissipates within a short period of time.

Project Description

C.2.a. CONT... attached to the existing foundation. This additional foundation will be 5 feet across the front, 10 feet deep, and 8 feet 6 inches across the back. On the southerly side of this will be a double GARAGE which will be on an offset ANGLE of approximately 30° which will measure 24 feet by either 24 or 26 feet. Additionally, we will be adding to our deck off the back of the family room an area approximately 14 feet by 12 feet 6 inches.
