Form 3

Commonwealth of Massachusetts

DEP File No.	.		
(To be provided by DEP)			
City-Town =	Seekonl	κ	
Applicant _	Fruehauf	Trailer	0pr

Notice of Intent Under the

Massachusetts Wetlands Protection Act, G.L. c. 131, §40

Application for a Department of the Army Permit

Pari	t I: General Information	
	Location: Street Address 53 Mink Road, Seekonk, MA Lot Number	
2.	Project: Type Remediation Description Biological treatment of	TPH contaminated
_	soil and groundwater.	
3.	Registry: County <u>Bristol</u> Current Book	_ & Page
	Certificate (If Registered Land)	
4.	Applicant Fruenati France Special Applicant P. O. Box 33238, Detroit, MI 48232-5238	
5.	Property Owner D. J. Cronin, Inc.	Tel. (401) 434–5252
	P. O. Box 4257, E. Providence, RI 02914	
6.	Representative <u>C. P. Gillespie</u> , III	Tel. <u>(205)353-15</u> 50
	AddressP. O. Box 608, Decatur, AL 35602	
7.	a. Have the Conservation Commission and the Department's Regional Office each mail or hand delivery, 2 copies of completed Notice of Intent, with supporting plans Yes No 🌣	been sent, by certified
	b. Has the fee been submitted? Yes No C. Total Filing Fee Submitted	
	c. Total Filing Fee Submitted State Share of Filing Fee d. City/Town Share of Filing Fee State Share of Filing Fee (1/2 of fee in excess of \$ e. Is a brief statement attached indicating how the applicant calculated the fee?	25, sent to DEP) Yes 🖾 No

lave all obtainable permits, variances and approvals required by local by-law been obtained? Yes 😨 No 🗏

Part II: Site Description

Indicate which of the following information has been provided (on a plan, in narrative description or calculations) to clearly, completely and accurately describe existing site conditions.

Identifying Number/Letter (of plan, narrative or calculations)

Natural Features:
Soils
Vegetation
Topography
Open water bodies (including ponds and lakes)
Flowing water bodies (including streams and rivers)
Public and private surface water and ground water supplies on or within 100 feet of site
Maximum annual ground water elevations with dates and location of test
Boundaries of resource areas checked under Part I, item 11 above
Other
Man-made Features:
Structures (such as buildings, piers, towers and headwalls)
Drainage and flood control facilities at the site and immediately off the site, including
culverts and open channels (with inverts), dams and dikes
Subsurface sewage disposal systems
Underground utilities
Roadways and parking areas
Property boundaries, easements and rights-of-way
Other
Other

Part III: Work Description

Indicate which of the following information has been provided (on a plan, in narrative description or calculations) to clearly, completely and accurately describe work proposed within each of the resource areas checked in Part I, item 11 above.

iconca iii i air ii ii	
Identifying	
Number/Letter	
of plan, narrative or calculations)	
,	Planview and Cross Section of:
	Structures (such as buildings, piers, towers and headwalls)
	Drainage and flood control facilities, including culverts and open channels (with inverts), dams and dikes
Shipman test to a	Subsurface sewage disposal systems & underground utilities
	Filling, dredging and excavating, indicating volume and composition of material
	Compensatory storage areas, where required in accordance with Part III, Section 10:57
	(4) of the regulations
	Wildlife habitat restoration or replication areas
	Other
	Point Source Discharge
	Description of characteristics of discharge from point source (both closed and open
	channel), when point of discharge falls within resource area checked under Part I, item
	11 apove, as supported by standard engineering calculations, data and plans, including

but not limited to the following:

- 1. Delineation of the drainage area contributing to the point of discharge:
- 2. Pre- and post-development peak run-off from the drainage area, at the point of discharge, for at least the 10-year and 100-year frequency storm:
- 3. Pre- and post-development rate of infiltration contributing to the resource area checked under Part I, item 11 above;
- 4. Estimated water quality characteristics of pre- and post-development run-off at the point of discharge.

Part IV: Mitigating Measures

- 1. Clearly, completely and accurately describe, with reference to supporting plans and calculations where necessary:
 - (a) All measures and designs proposed to meet the performance standards set forth under each resource area specified in Part II or Part III of the regulations; or
 - (b) why the presumptions set forth under each resource area specified in Part II or Part III of the regulations do not apply.

_ Coastal _ Inland	Resource Area Type	Identifying number or letter of support documents
	•	

- 2. Clearly, completely and accurately describe, with reference to supporting plans and calculations where necessary:
 - (a) all measures and designs to regulate work within the Buffer Zone so as to ensure that said work does not alter an area specified in Part I, Section 10.02(1) (a) of these regulations; or
 - (b) if work in the Buffer Zone will alter such an area, all measures and designs proposed to meet the performance standards established for the adjacent resource area specified in Part II or Part III of these regulations.

Coastal Resource Area Type Bordered By 100-Foot Discretionary Zone: Inland	laentifying number or letter of support documents
Groundwater Recovery Wells Biological Remediation Scheme	D F

Part V: Additional Information for a Department of the Army Permit

 COE Application No. __ (Name of waterway) (to be provided by COE)

3. Names and addresses of property owners adjoining your property:

- 4. Document other project alternatives (i.e., other locations and/or construction methods, particularly those that would eliminate the discharge of dredged or fill material into waters or wetlands).
- 5. 8½" x 11" drawings in planview and cross-section, showing the resource area and the proposed activity within the resource area. Drawings must be to scale and should be clear enough for photocopying.

Certification is required from the Division of Water Pollution Control before the Federal permit can be issued. Certification may be obtained by contacting the Division of Water Pollution Control, 1 Winter Street, Boston, Massachusetts 02108.

Where the activity will take place within the area under the Massachusetts approved Coastal Zone Management Program, the applicant certifies that his proposed activity complies with and will be conducted in a manner that is consistent with the approved program.

Information provided will be used in evaluating the application for a permit and is made a matter of public record through issuance of a public notice. Disclosure of this information is voluntary, however, if necessary information is not provided, the application cannot be processed nor can a permit be issued.

I hereby certify under the pains and penalties of perjury that the foregoing Notice of Intent and accompanying plans, documents and supporting data are true and complete, to the best of my knowledge.

"Exception to ENG Form 4345 approved by HQUSACE, 6 May 1982" 1 MAY 82

(TEST) ... This document contains a joint Department of the Army and State of Massachusetts application for a permit to obtain permission to perform activities in United States waters. The Office of Management and Budget (OMB) has approved those questions required by the US Army Corps of Engineers, OMB Number 0702-0036 and expiration date of 30 September 1983 applies". This statement will be set in 6 point type.
