Enforcement Officer's Report The WEO reported a complaint of a Robert and Julie Holland

Enforcement Officer's Report The WEO reported a complaint of a Robert and Julie Holland on North Anguilla Road. During rains in July the two manmade ponds became silted with material from the road. They dragged the fill back up with heavy equipment and now the work is completed. The owners should have reported to Inland Wetlands and will do so in the future. Grandview Farm subdivision needs to modify their detention outlet plan because their contours were not correct, until that time they will be pumping the water to the top of the hill where it should drain into the wetlands. They will be applying for a permit modification.
