

**Stratham Conservation Commission
Meeting Minutes Wednesday
June 10, 2010**

Members present: Pat Elwell, Tim Copeland, Bob Keating, Dan McAuliffe, and Allison Knab. Also in attendance: Paul Deschaine.

Pat received a call about a turtle nesting on the side of the road near CMS. The concerned caller from Exeter stated it was on the edge of the road and felt there might be some way we could protect it. Pat checked the site later in the morning and found the turtle had move on away from the road toward the pond and notified the caller and thanked him for his concern.

Pat updated the CC on a recent meeting with Brian Hart regarding the Scamman property. There have been several delays in getting information back from the landowner but things are still moving forward for the easement.

Tim announced that he is running for state rep and he will bring a strong conservation presence to the state if elected. Members discussed with Tim issues we felt would need to be addressed when he is elected.

The meeting was adjourned on 8:00 pm.

The next meeting will be June 23, 2010 at 7 pm.
