Stratham Energy Commission Meeting Minutes

Date: Wednesday, March 13, 2013

Commission members present:

John C. Dold

Michael Gorman

Mike Welty

Matthew O'Keefe

Colin Lavery, Stratham Highway Agent

Absent:

James Schlough

Call to Order: Meeting was called to order at 7:08 PM in the meeting room/lunch room of the Stratham Highway Department.

Review and Approve Minutes: Minutes of the February 13th meeting were approved.

Colin Lavery introduced himself and gave a brief background of his qualifications. He has worked for the Highway Department since the late summer of last year. Prior to that, he worked for a number of years for SPS New England, headquartered in Salisbury, MA. Colin was a Project Manager who was assigned to various highway and bridge projects throughout Massachusetts.

Colin took us on a tour of the main DPW garage, the red garage and the salt shed. We toured the facility making notes with respect to the types of lighting used, heat systems, compressor, etc. We viewed the office area which has central heating and AC. The garage areas are divided in two. One half is heated by space heaters within the garage area and two in the storage areas. The fuel source for this area is propane. The other half of the garage is heated by a waste oil furnace. It burns approximately 2000 gallons of waste oil per year. The entire main garage and office area is approximately 12000 square feet.

Attached is a copy of three pages of the Lighting Survey prepared by Mike Welty.

Meeting adjourned at 8:30 PM.
