

Water Commission Meeting January 7, 2003

Attending: Anna Kraus
George Miller
Jeremy Smith

Called to order @ 7:40 p.m.

Reviewed minutes of last month's Commission meeting held on December 10th. Motion to approve the minutes was passed.

Activity:

- George distributed disks and well surveys to Jeremy and Anna. The well survey information is to be entered into the spreadsheet George provided by the March 2003 meeting of the Commission.
- David Maclean, Senior Hydrogeologist with GeoInsight, Inc. of Londonderry attended this meeting. We shared with him our mission and approach and solicited his input. He shared his thoughts and insights with us and provided us some direction and names of people who may be able to further our cause at the DES.
- On February 19, 2003 there will be a joint meeting of Stratham's and Exeter's Water Commissions, Planning Boards and Conservation Commissions. This joint session is expected to be very beneficial in terms of aligning everyone's perceptions and objectives.

Action Items:

- Jeremy still needs to have contact with Aquarion to get some guidance as to how to estimate the water usage demands of an auto dealer.
- Survey data needs to be input into our database.

Meeting adjourned @ 8:45 p.m.

Respectfully submitted,

Anna Kraus
