The Town Tree Warden Tom Chamberland attended tonight's rec meeting with concerns of the  
decline of the tree's on the town common. The tree's are slowly taken due to root compaction by  
the excessive parking on the common and also a fungus that has also infected some of the oak trees  
on the common. The Recreation committee has noted on the Property use Policy that there is no  
parking allowed on the town common and is not allowing any mechanical amusements to be placed  
on the town common.
