David Cahill moderated the meeting. No actions were taken because of attendance. Items of discussion included the following:

In order to allow the Committee to move forward at subsequent meetings, Dave Cahill agreed to present the Committee approved logo design to the Sunapee Selectmen at their next meeting for approval. He will let the Committee know the time in case others would like to be present and will inform members of the Committee of the outcome. Once approved by the Selectmen, the Committee can move forward with the purchase of commemorative items using the logo.

Becky Rylander noted that the Quilt Project had been launched but more participants were needed. David Cahill suggested that the town electronic sign could be used to inform people about the opportunity to participate in this project as well as other Committee events.

Sharon Parsons agreed to contact Sharon Thielicke to follow up on the Committee's web site.

Kathy Springsteen shared information on banners that has been researched by Wendy Nolin. Wendy has been in contact with Saymore and has costs for banners and hanging hardware. It will be important to have high-resolution copy for banner production.

Members shared other information about contacts being made on behalf of the committee.

- Wendy Nolin has been unable to contact the Yacht Club because summer meetings have not begun yet.
- Sharon Parsons reported that the school was interested in participating in events though nothing was finalized at this time. She also said that she had discussed neighborhood participation events with people living on Central Street.
- Becky Rylander has spoken with the Granliden Association and suggested they consider event/participation. Participating in the parade was mentioned.

The meeting ended at 7:30 PM.

Respectfully, Submitted,

Kathy Springsteen
