Jeffrey advised that a revised cost estimate will be available for the May 3 meeting. Planning for snow removal is still being reviewed. The location of the driveway onto Central Turnpike has been moved slightly to get it further away from the intersection. The abandoned pipeline should not present any problems. The possible location for a communications tower remains to be determined. There is an issue still to be resolved with the grading adjacent to the wetlands. Solar panels may be located on the carport roof. Jim Smith mentioned the idea of adding windows to the dormers.
