The project is expected to be completed within 45 days and **there will be several NOTAMs in place at various times throughout the construction period and pilots are urged to check for the latest NOTAMs prior to departing or arriving.** The staging area and work area is to be approached from the So. Precinct Street gate and there will be no construction vehicles in the AOA area. There will be a 300 ft temporary threshold displacement for Rwy 30 and this will also affect night time landings.

**Airport Identification Badges:** Just a reminder that that no person is allowed to enter the Airport Operating Area (AOA) [inside the fence line] unless that person has been granted unescorted access authority and is in possession of and displaying his or her TAN issued badge. Be aware of your badge expiration date as it is needed to access the assigned gate controls.
