Dear Mr. Mayor and Councilors,

I wish to thank you for the opportunity that you have given me to act as the Chairman of the Licensing Board for these past 3-4 yrs.

However, I feel that it is time for me to pursue other considerations in my life.

Therefore, I hereby tender my resignation as Chairman of the Licensing Board of the City of Taunton.

This resignation to take effect Jan 1, 2013.

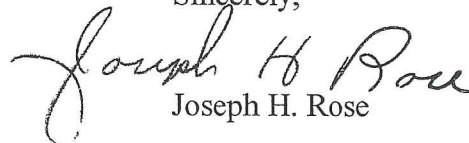

In leaving I would make two recommendations to the administration.

Elect Peter Lamb as Chairman of the Board as he will provide a steady influence during transition.

Consider expanding the Board to 5 positions to facilitate compliance with the Open Meeting Law.

Again, I wish to take this time to thank all of you for the support that you have shown me during my tenure as Chairman.

Sincerely,

Joseph H. Rose

Re: Robert W. Boyden Road gas line connection

Petition of Norton Commerce Center Hill Street, LLC to The City Council to allow Columbia Gas Company, on behalf of Waste Management of Massachusetts, Inc. ("WMMA") and Norton Commerce Center Hill Street, LLC ("NCC"), to open the street for the underground installation of a natural gas line in the right of way comprising Robert W. Boyden Road (f/k/a Hill Street) to its intersection with Myles Standish Boulevard and a connection to the existing gas line in Myles Standish Boulevard, all as shown on the attached plan (the "Plan") entitled "Columbia Gas Connection Location Exhibit", dated 12/1/12, by C & A Engineering Services.

As shown on the Plan, the installation of the major portion of the gas line will be located outside the Myles Standish Boulevard right-of-way. Only 21 feet of the portion of the street to be opened is located in an area paved within the last five (5) years. The attached Plan shows that area covered by the five (5) year moratorium highlighted in yellow. The area in yellow and the balance of the street in which the gas line is to be installed and shown as a green line, needs City Council approval because it is beyond the November cut-off date for street openings.

The Petitioner seeks the Council's approval of the opening of the pavement for installation of the gas line due to the fact that the Petitioner's Application to the Street Division of the Taunton Department of Public Works for a Street Opening Permit was returned marked "Not Approved" on November 12, 2012. The basis for the disapproval, as previously referenced, was that the pavement within the 21 foot affected area is under the five (5) year moratorium and that the opening requested in both the old paved section of Robert W. Boyden Road and the newly paved portion of the intersection of Robert W. Boyden Road and Myles Standish Boulevard are beyond the November cut-off date. The gas connection is required in order for WMMA to open and operate its vehicle maintenance facility in the Norton Commerce Center. The use of Robert W. Boyden Road/Hill Street by WMMA was approved by the City Council in a Memorandum of Understanding among the City of Taunton, WMMA, NCC and the Town of Norton in June of 2012.

The Petitioner respectfully requests the Council approve the Street Opening Application despite the November cut-off date and the five (5) year moratorium.
