TECHNICAL SPECIFICATIONS

GREEN WASTE CHIPPING

PART 1 GENERAL

Chipping work under includes all labor, material, trucks, equipment and supervision to chip at curbside tree branches, tree parts, and brush debris (hereafter referred to as “processed green waste”) stockpiled along all City of Torrington public streets, on City of Torrington owned properties (*including schools*) and other locations as may be designated by the Engineer. Materials will be brought by the property owners on average to within 5 to 20 feet of the curb or road edge. Work includes chipping tree logs up to 12 inches in diameter. Tree logs greater than 12 inches may be chipped at the contractor’s option if equipment is capable of taking larger diameter materials. Any tree logs greater than 12” that the contractor’s equipment is not capable of chipping or the contractor elects not to chip shall be left at curbside in a neat pile with the length of pieces not to exceed 42 inches. The Contractor shall provide a minimum three man crew with box truck and chipper. Contractor shall haul all chipped green waste to the City’s designated processing/recycling site located at *Supreme Industries, 216 Bogue Road, Harwinton CT 06791*. **The Contractor is not responsible for the payment of any disposal fees that may be charged at the offsite location(s). The City will be contracting directly with the owner of the designated processing/recycling site to allow the City’s contractor to dispose at the site.**

A Notice to Proceed should be issued shortly after award of the contract anticipated to be the fourth week of November 2011. Work shall be completed within 25 calendar days from date of the Notice to Proceed. Any Contract amendments or modifications will be in writing. Use of any subcontractors shall be approved by the City of Torrington.

The Contractor shall submit the following with his bid:

A list of subcontractors

Percentage of overall work he plans to subcontract out

Listing of Equipment available for this work

Number of Chipper crews

Any contract awarded on or after July 1, 2009 requires any mechanic, laborer, or worker who performs work in a classification listed on the prevailing wage rate schedule on any public works project to complete a ten (10) hour federal OSHA safety and health course and provide proof of completion to the City of Torrington.

This contract shall require payment of State of Connecticut Prevailing wage rates and Davis-Bacon Wage rates (the Contractor shall pay the higher of the State or Federal prevailing wage rate), and compliance with certain local, state and federal requirements. This project is partially federally funded. (*See attached wages rates*)

PART 2 MATERIALS

The CONTRACTOR shall employ such equipment and materials necessary to perform the Work as customarily used for this chipping operations such as chain saws, wood chippers that are **capable of chipping up to 12 inch diameter** tree sections, box truck/container(s), safety equipment, traffic control, etc.

PART 3 EXECUTION

3.01 Chipping:

- A. Chipping operations shall be conducted in such a manner that motorist and adjacent property owners will be inconvenienced as little as possible.
- B. The Contractor shall leave the roads and all parts of the adjacent property affected by his operations in a clean, neat and satisfactory condition. Work includes removal of small sticks and other small wood byproducts.
- C. The Contractor shall coordinate his work schedule with City forces. Contractor shall schedule chipping work on streets in the order of numbered work zones as shown in the attached Cleanup Zone Map. Work shall progress from zone 1 to zone 5 in order or as directed by the Engineer. Also supplementing the zone map is a spreadsheet indicating the district areas within. Cleanup operations shall be scheduled so that the designated zones and districts are followed in order.
- D. Chipping operations shall be conducted so as to prevent damage to existing structures and properties, and so as to provide for the safety of employees and the public. Any existing structure, accessway, parking lot, lawns or any other property that is damaged or claims filed for loses due to damage in the course of chipping operations will be repaired at no cost to the city by the CONTRACTOR as directed by the ENGINEER.
- E. The contractor maybe directed by Engineer to work on private property or cross private property to access the work areas. Before the Contractor enters private property, the City will obtain written permission from the property owner. The City's generic Right to Access Form will be used in such case.
- F. The contractor's work day shall be from 7:00am to 4:00pm Monday through Friday not including Holidays, extended holiday weekends such as Thanksgiving. The contractor must stop chipping operations by 4pm, however the processing/recycling site(s) will be open for disposal until 4:30pm for deliveries.
- G. The Contractor will be required to weigh a full truck load of processed green waste at the weigh station located at O&G Industries located on Bogue Road, Harwinton, Connecticut. The weight of the empty truck to be used for weighing material loads shall also be recorded to allow the City to calculate the weight of a cubic yard of chipped material.

PART 4 MEASUREMENT AND PAYMENT

- A. The actual quantity of chips (“processed green waste” material) that are delivered to the City’s processing/recycling site will be measured for payment. Payment will be calculated by taking the unit price bid per cubic yard of “processed green waste” and multiplying that unit price by the actual measured quantity of delivered chips inspected and recorded. There will be no separate payment for any logs greater than 12 inches, cut and stacked at curbside.
- B. Measurements for “processed green waste” will be made by the City Inspector at the processing/recycling site and shall be calculated by taking the actual dimensions (length, width and height) of the material containers. Deductions in material dimensions shall be made to reflect partially filled containers. A page titled Truck Load Deductions Sample” found herein schematically shows partially fill trucks and varying percentages to be used as a general guide by the inspector in determining the deduction percentages of partially filled trucks/containers. The inspector’s determination shall be final. City inspectors will also travel with the contractor’s chipping crew and will record pickup locations and loads and will also monitor materials for insect infestation. A truck identification code at the chipping locations and at the disposal site will be used by the inspectors to track contract waste only.
- C. Unit price bids shall include all labor, equipment, tools, traffic control and signage, and all work incidental to complete the item as specified. Fees to weigh full truck loads of materials will be incidental and will not be paid as a separate item. There will be no additional payment for work associated with protecting property and/or repairing any damage resulting from the Contractors operations.

 =====

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

 In the listing above, the "SU" designation means that rates listed under the identifier do not reflect collectively bargained wage and fringe benefit rates. Other designations indicate unions whose rates have been determined to be prevailing.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations

GREEN WASTE CHIPPING FOR CITY OF TORRINGTON
 ADDENDUM #1

NOVEMBER 16, 2011

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

While completion of Form WH-347 is optional, it is mandatory for covered contractors and subcontractors performing work on Federally financed or assisted construction contracts to respond to the information collection contained in 29 C.F.R. §§ 3.3, 5.5(a). The Copeland Act (40 U.S.C. § 3145) contractors and subcontractors performing work on Federally financed or assisted construction contracts to "furnish weekly a statement with respect to the wages paid each employee during the preceding week." U.S. Department of Labor (DOL) regulations at 29 C.F.R. § 5.5(a)(3)(ii) require contractors to submit weekly a copy of all payrolls to the Federal agency contracting for or financing the construction project, accompanied by a signed "Statement of Compliance" indicating that the payrolls are correct and complete and that each laborer or mechanic has been paid not less than the proper Davis-Bacon prevailing wage rate for the work performed. DOL and federal contracting agencies receiving this information review the information to determine that employees have received legally required wages and fringe benefits.

Public Burden Statement

We estimate that it will take an average of 55 minutes to complete this collection, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. If you have any comments regarding these estimates or any other aspect of this collection, including suggestions for reducing this burden, send them to the Administrator, Wage and Hour Division, U.S. Department of Labor, Room S3502, 200 Constitution Avenue, N.W. Washington, D.C. 20210

- Crane with 400 ft. boom (including jib) - \$10.00 extra

All classifications that indicate a percentage of the fringe benefits must be calculated at the percentage rate times the "base hourly rate".

Apprentices duly registered under the Commissioner of Labor's regulations on "Work Training Standards for Apprenticeship and Training Programs" Section 31-51-d-1 to 12, are allowed to be paid the appropriate percentage of the prevailing journeymen hourly base and the full fringe benefit rate, providing the work site ratio shall not be less than one full-time journeyman instructing and supervising the work of each apprentice in a specific trade.

~~Connecticut General Statute Section 31-55a: Annual Adjustments to wage rates by contractors doing state work ~~

The Prevailing wage rates applicable to this project are subject to annual adjustments each July 1st for the duration of the project.

Each contractor shall pay the annual adjusted prevailing wage rate that is in effect each July 1st, as posted by the Department of Labor.

It is the contractor's responsibility to obtain the annual adjusted prevailing wage rate increases directly from the Department of Labor's website.

The annual adjustments will be posted on the Department of Labor's Web page: www.ct.gov/dol.

The Department of Labor will continue to issue the initial prevailing wage rate schedule to the Contracting Agency for the project.

All subsequent annual adjustments will be posted on our Web Site for contractor access.
