Questions & Answers 2/14/12

- 1) Q. Because it is a wall mounted equipment rack which will stand off the wall by 17" should the sound cabinet be moved away from the press box entrance door? A better position would be the back wall at the opposite corner.
 - A. The placement of the cabinet will be determined once the proposal is awarded. At this point the intent is to install the cabinet where it is currently located.

- 2) Q. If the rack is moved, then the power for the rack would need to be moved also. Who would be responsible for moving the power?
 - A. If the outlet needs to be relocated in order to place the cabinet in a different location, the City of Torrington will coordinate relocating the outlet with the City's contracted electrician.
