QUESTIONS/ANSWERS: 1/4/17

Q-1) Can you handle a tractor trailer truck for delivery or do you need a smaller truck with a lift gate? Also do you need inside delivery?

A-1) A smaller truck with a lift gate is preferred. This will be an inside delivery at no additional cost per specifications.

Q-2) I am aware that you are asking specifically for Eaton products in your RFP#UPS-023-011017 UNINTERRUPTIBLE POWER SUPPLY (UPS) PROJECT, but would you consider the equivalent or better Emerson/Liebert products? I ask because while we can and do install Eaton products we can offer a much better value (and save Torrington money) if I can submit a bid for Emerson/Liebert devices.

A-2) The bid specifications and requirements are for Eaton products.

Q-3) May I please have the cost range or estimate?

A-3) N/A
