Torrington received a Partnership Grant that supported local communities in the development of a comprehensive community wide plan for young children, birth to age eight. The plan encompasses:

- ❖ Early Care & Education
- ❖ Social Growth and Development
- ❖ Emotional Growth and Development
- ❖ Behavioral Growth and Development
- ❖ Physical Health
- ❖ Family Supports

These areas have been aligned with the priorities established in Connecticut's Early Childhood Framework "Ready by 5 fine by 9"

Join us, at this community outreach event to:

- view your final product,
- hear about the plan you helped shape,
- and learn how you can continue to be a part of it!

Your feedback through focus groups, surveys, & interviews collected over the past 18 months identified what the community-wide plan should focus on.

Funding provided by a grant from the State Department of Education on behalf of the Early Childhood Education Cabinet and the William Caspar Graustein Memorial Fund.
