SPRING YARD WASTE PICKUP

TORRINGTON, CT 06790

Our Spring Leaf and Yard Waste pickup for Torrington residents will begin Monday, April 24, 2017 and end Friday, May 5, 2017. Leaves and Yard Waste must be placed curbside for pickup on the same day as garbage pickup. Please do not call to schedule pickup.

Any resident that missed the January Christmas Tree collection can also place their Christmas Trees curbside for collection. Residents are reminded that all plastic bags and decorations must be removed from trees prior to pick up.

Yard waste includes horticultural trimmings, which are free of stones, dirt, and sharp objects; or other natural organic matter, such as grass clippings, discarded from yards and gardens.

Only leaves and yard waste bagged in biodegradable paper bags or tied into bundles not exceeding fifty (50) pounds in weight will be picked up. Individual branches shall not exceed four (4) feet in length or 3" in diameter. Leaves or yard waste raked into piles curbside will not be picked up.

Biodegradable Paper Bags can be purchased at many local stores.

Residents are reminded that leaves and grass trimmings are a recyclable material and cannot be picked-up as part of our normal curbside collection and disposal program. Take advantage of our Spring & Fall clean-ups to recycle these items. Grass clippings can be easily managed during the growing season by removing grass catchers on mowers and leaving the clippings on the lawn. Grass clippings are 80% water and decompose quickly. Clippings also act as a natural fertilizer returning nitrogen and other nutrients to the lawn.
