Igniter replaced by Nydam Oil Service on February 4<sup>th</sup> and heater put into operation on the 5<sup>th</sup>. Nydam's records showed THEY had not cleaned the burner since 2007. Nydam authorized to service the burner on February 25<sup>th</sup>. Firebox burned out and what was left had holes in it.

Weather was with us....50 degrees and new furnace was installed first week in March.

At the same time, upstairs toilet leaking. Floor all wet, could not shut off water and tank kept filling up. Bob Harris of R Harris Plumbing & Heating contacted to repair.

Members present voted unanimously to support Peter Emerick for his quick action facilitating repairs and in contacting Town Manager.

Bill Albin pointed out light on sign is out again and he would take care of it. Members discussed other issues but no action taken feeling should be addressed by a full board.
