

Wareham Bike Path Committee Meeting  
April 17, 2013  
At Wareham Multi-Service Center – Rm # 119

In attendance: Michael Langford, Damon Howard, Dale Scott, Eileen Allgor

Michael Langford called the meeting to order at 6:07.

February meeting minutes were approved.

**Survey** – The online survey continues at 96% favorable.

**Friends of the Pathway** – The Friends group will need volunteers to help with the race in Onset the beginning of June. They will provide funds for the signage on the striping on Onset Ave, expected to be complete this spring. A ham and bean supper is proposed this year instead of the usual spaghetti supper, tentatively scheduled for mid-July.

**Southcoast Bikeway** – Adam Recchia has left SRPEDD and is replaced by Jackie Schmidt. Michael will extend an invitation to Jackie to attend one of our monthly meetings. Adam has been a huge help to many towns and will be sorely missed. A letter has been distributed from Rich Davey stating that rails with trails is a definite possibility. This information will have a great effect on our proposed pathway.

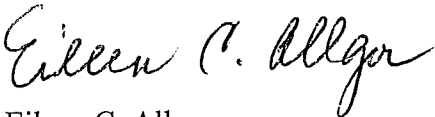

**BOS** – The BOS approved the striping of Onset Ave at their meeting last night, April 16th. The map was produced by GAF Engineering. For future reference, the BOS asked that we have an estimate of the monies required for future phases of the pathway.

**Other** – The committee discussed the feasibility of linking Minot Ave to Onset Ave since the striping is expected this spring. It was suggested that our committee schedule a meeting with the Minot Forest committee.

**Other** – everyone was very pleased with the approval by the BOS to stripe Onset Ave and would like to keep the momentum going.

Meeting adjourned at 7:00.

Respectfully submitted,

A handwritten signature in cursive script, reading "Eileen C. Allgor".
