Miss Ruby Tuttle taught at the Dole School, thirty-five weeks, losing one week on account of serious illness in her family. Mrs. Mary B. Book taught at the East Washington school until March 19, at which time she removed to Canada. This school was without a teacher until April 26 when we were fortunate in obtaining Miss Vina Dole, who has had considerable successful experience as a teacher, to take charge, and in order to make up as much time as possible she consented to teach as late as July 2. Because of Mrs. Book's removal from the state we were able to have but thirty weeks of school at East Washington.

When a lumber company decided to operate near Cherry valley and the lumbermen brought their families, it was found that a school must be provided at once for twelve children. There was no school building in that district, and as there had been no notice that a school would be needed there, no money had been appropriated for the erection of a building. There was no guarantee that the children would be there long so altogether the situation was somewhat troublesome.

One room in an old farm house was repaired, a cement chimney replaced the old brick chimney and

other work done to make the room useable. Mrs. Johnson who lived at the camp, and had had some teaching experience was engaged to teach the school, and did so in a satisfactory manner, but for personal reasons taught only eighteen weeks, and no one could be found to succeed her.

The percentage of attendance was not as high as it should be and we trust it may improve this year. It should be a source of pride that the only one of our eighth grade pupils to enter high school is doing excellent work.

At the beginning of the year there were found to be a very inadequate supply of text books on hand, so that a large number were purchased, yet not as many as are needed and for the next year or two the amount of money spent for text books may seem large.

The school gatherings at Thanksgiving and Christmas time or other special occasions have been helpful, and one of the teachers says, "One aim of the school has been to renew the old time community gatherings." Three of these gatherings have been enjoyed by all.

The discipline in each of the schools has been exceptionally good. For that, the teachers and children are deserving of praise, and it was a pleasure to see the friendly relation which existed between teacher and pupils.

Washington has much in the way of educational traditions of which to be proud, and one of the ways in which that pride may be justly renewed is for each one to take a personal interest in the school in his immediate vicinity. Entertainment and other social gatherings might well be held in the school houses, thus making the school the center of community interest. The statistical tables and roll of honor for each term is added to this report.
