(Also DEP File 322-832)

Project Description: An application seeking to obtain resource area delineation of a project site located at 484-490 Boston Post Road, Wayland, shown on Assessor's Map 22, Parcels 3, 6 and 7.

Plan Reference/s: Sheet 1 of 5, "Index Sheet", Existing Conditions Survey 484- 490 Boston Post Road Wayland, Massachusetts, WSP-Sells, November 29, 2014, revised 3/6/2013 (Added Wetland Flags RA1-RA18), 3/7/2103 (Added elevations to Wetland Flags RA1-RA18), 3/20/2013 (Added Elevations to Wetland Flags A1-A19), 10/29/2014 (Added topography within wetlands), 11/21/2014 (Added wetland and Water Resource Area Information), and 1/05/2015 (Added Index Sheet), Darren J. Hardy, P.L.S.; Sheet 1 of 4, Existing Conditions Survey 484- 490 Boston Post Road Wayland, Massachusetts, WSP-Sells, November 29, 2014, revised 3/6/2013 (Added Wetland Flags RA1-RA18), 3/7/2103 (Added elevations to Wetland Flags RA1-RA18), 3/20/2013 (Added Elevations to Wetland Flags A1-A19), 10/29/2014 (Added topography within wetlands), 11/21/2014 (Added wetland and Water Resource Area Information); Sheet 2 of 4, Existing Conditions Survey 484- 490 Boston Post Road Wayland, Massachusetts, WSP-Sells, November 29, 2014, revised 3/6/2013 (Added Wetland Flags RA1-RA18), 3/7/2103 (Added elevations to Wetland Flags RA1-RA18), 3/20/2013 (Added Elevations to Wetland Flags A1-A19), 10/29/2014 (Added topography within wetlands), 11/21/2014 (Added wetland and Water Resource Area Information), Darren J. Hardy, P.L.S.; Sheet 3 of 4, Existing Conditions Survey 484- 490 Boston Post Road Wayland, Massachusetts, WSP-Sells, November 29, 2014, revised 3/6/2013 (Added Wetland Flags RA1-RA18), 3/7/2103 (Added elevations to Wetland Flags RA1-RA18), 3/20/2013 (Added Elevations to Wetland Flags A1-A19), 10/29/2014 (Added topography within wetlands), 11/21/2014 (Added wetland and Water Resource Area Information), Darren J. Hardy, P.L.S.; and Sheet 4 of 4, Existing Conditions Survey 484- 490 Boston Post Road Wayland, Massachusetts, WSP-Sells, November 29, 2014, revised 3/6/2013 (Added Wetland Flags RA1-RA18), 3/7/2103 (Added elevations to Wetland Flags RA1-RA18), 3/20/2013 (Added Elevations to Wetland Flags A1-A19), 10/29/2014 (Added topography within wetlands), 11/21/2014 (Added wetland and Water Resource Area Information), Darren J. Hardy, P.L.S.

Procedural: The Conservation Commission received the application for resource area delineation submitted by Jack O'Connell, Tata & Howard, Inc. on November 26, 2014. The public hearing was opened on December 18, 2014, continued multiple times and closed on May 21, 2015.

CONSERVATION COMMISSION CONCLUSION:

1. The wetland delineation on the plan referenced in this decision is accepted as an accurate depiction of wetland resources protected by Chapter 194 except as noted below.
2. There is 100-year floodplain on portions of the lands as defined on the plans referenced in this decision.
3. There was wetlands flagging done with blue ribbon, mostly now faded, and those were re-confirmed by P. Fletcher as defining the majority of the wetlands.
4. There is an isolated wetland on the property that is not defined on the plan. This wetland is generally west of Wetland Flags A18 and A19 and the depression is shown on Sheet 3 of 4 with a bottom elevation of 120.
5. The mean annual high water mark is not less than 115.5 NAVD 88.
6. Buffer zone is a resource area to vegetated wetlands and floodplain regulated by Chapter 194.

FINDINGS – Wayland's Wetlands and Water Resources Bylaw Chapter 194:

- a. Chapter 194 includes more resource areas than those defined by the Wetlands Protection Act and the Wetlands Regulations (310 CMR 10.00).
- b. Chapter 194 is intended to be more inclusive and definitive with respect to protected resource areas than the Wetlands Protection Act.
- c. Vegetated wetlands are a resource area.
- d. The Conservation Commission will not finalize a wetlands delineation between the months of November through April.
- e. Buffer zone is a resource area protected by Chapter 194.
- f. The plans referenced in this decision do not depict all of the wetlands found on the properties by the Conservation Commission.
- g. The delineation of wetlands is based upon plants and soils. Plants are difficult to assess between the months of November through April of any year. This resulted in a number of continued public hearings.
- h. The regulations adopted for Chapter 194 state: “Applications for Notices of Resource Area Delineation (ANRAD) are encouraged to be submitted **between the months of May and October** and shall not be finalized between the months of November through April of any given year.”
- i. The mean annual high water mark should be the same on both the eastern and western sides of the Sudbury River.
- j. The small wetland north of an old cart path, defined by P. Fletcher, is also likely land subject to flooding and inundation.
- k. There is a separate Order of Resource Area Delineation – DEP File No. 322-832.
- l. Resource areas under Chapter 194 include areas not regulated by the Wetlands Protection Act.

***This decision is not valid without a signature sheet.
The page numbering does not include the signature sheet.
This Resource Area Determination expires on June 16, 2018.***

C. Findings

This Order of Resource Area Delineation determines that the boundaries of those resource areas noted above, have been delineated and approved by the Commission and are binding as to all decisions rendered pursuant to the Massachusetts Wetlands Protection Act (M.G.L. c.131, § 40) and its regulations (310 CMR 10.00). This Order does not, however, determine the boundaries of any resource area or Buffer Zone to any resource area not specifically noted above, regardless of whether such boundaries are contained on the plans attached to this Order or to the Abbreviated Notice of Resource Area Delineation.

This Order must be signed by a majority of the Conservation Commission. The Order must be sent by certified mail (return receipt requested) or hand delivered to the applicant. A copy also must be mailed or hand delivered at the same time to the appropriate DEP Regional Office (see <http://www.mass.gov/eea/agencies/massdep/about/contacts/find-the-massdep-regional-office-for-your-city-or-town.html>).

D. Appeals

The applicant, the owner, any person aggrieved by this Order, any owner of land abutting the land subject to this Order, or any ten residents of the city or town in which such land is located, are hereby notified of their right to request the appropriate DEP Regional Office to issue a Superseding Order of Resource Area Delineation. When requested to issue a Superseding Order of Resource Area Delineation, the Department's review is limited to the objections to the resource area delineation(s) stated in the appeal request. The request must be made by certified mail or hand delivery to the Department, with the appropriate filing fee and a completed Request for Departmental Action Fee Transmittal Form, as provided in 310 CMR 10.03(7) within ten business days from the date of issuance of this Order. A copy of the request shall at the same time be sent by certified mail or hand delivery to the Conservation Commission and to the applicant, if he/she is not the appellant.

Any appellants seeking to appeal the Department's Superseding Order of Resource Area Delineation will be required to demonstrate prior participation in the review of this project. Previous participation in the permit proceeding means the submission of written information to the Conservation Commission prior to the close of the public hearing, requesting a Superseding Order or Determination, or providing written information to the Department prior to issuance of a Superseding Order or Determination.

The request shall state clearly and concisely the objections to the Order which is being appealed and how the Order does not contribute to the protection of the interests identified in the Massachusetts Wetlands Protection Act, (M.G.L. c. 131, § 40) and is inconsistent with the wetlands regulations (310 CMR 10.00). To the extent that the Order is based on a municipal bylaw or ordinance, and not on the Massachusetts Wetlands Protection Act or regulations, the Department of Environmental Protection has no appellate jurisdiction.

FINDINGS- MGL Chapter 131, Section 40:

- a. The Commission has not made any finding with respect to vernal pools on or adjacent to the site. There were no certified vernal pools on the property based upon the Town of Wayland's data layer taken from the MA Natural Heritage and Endangered Species, date unknown .
- b. The topographic plans used the NAVD 88 vertical datum.
- c. The horizontal datum shown referenced the Massachusetts Mainland State Plane Coordinate System NAD83.
- d. There is estimate habitat as defined by MA NHESP on portions of the parcels for which this decision is issued.
- e. There is priority habitat as defined by MA NHESP on portions of the parcels for which this decision is issued.
- f. This decision is intended to define resource areas and is not for any work on any of the parcels identified in this decision.
- g. P. Fletcher reviewed the soils associated with wetlands flagging on both then north side of parcels and wetlands to the east of the existing roadway.
- h. The Commission continued this hearing a number of times as the review of wetlands vegetation between November and April is difficult.
- i. Wetlands to the north on the site are generally at the toe of fill.
