

**Wayland Recreation Department**  
**Minutes**  
**May 3, 2010**  
**Recreation Meeting**

Present: Thomason, Meliones, Virzi, Wright, McShea

Meliones opened the meeting at 7:07pm.

Thomason motion to approve minutes from April 13, 2010, bills and payroll. Second Wright. Vote unanimous in favor.

Public Comment – Linda Segal

Loker/Dow- 1999 Scope of work for risk assessment to see if clean up was sufficient for proposed use. Compared that to Goldstein's 7 part document that he brought to April 13<sup>th</sup> commission meeting. Information is incomplete. Linda said that when other quote information that is incomplete it upsets her. Warrant issue about the 2 to 2 vote characterized as taking no position when vote actually failed, according to Segal. They characterized the neighbors groups as one big happy team. Not until 4 years after the clean-up did the group and neighbors collaborate and work together on a case study. The ponds were never dredged, neighbors did not do testing, town did not do testing. Would like to see recreation be able to work on that property. News article last Thursday – group interested in developing 4 acres. Story is not straight, no reason it can't be told factually.

Discussion about town meeting. Meliones commented that we should assume that a motion will be made on Article 25 at town meeting. Beach house will be part of Article V, Virzi will speak to article if questions. Getting back to Loker site if article is not pulled, commission can choose to comment or not or speak individually to the article.

Jesse Addleman – WBSA, no show, rescheduled to June 7<sup>th</sup> meeting.

Virzi motion to adjourn, second Thomason. Vote unanimous in favor.

Meeting adjourned 8:08pm. Next meeting June 7<sup>th</sup> at 7pm.
