>>

>> The suggestion was made to have a certain fee for grass fields

>> and a higher fee for the

>>

>> turf field . This fee should be higher for non-residents . The

>> suggestion was made to use

>>

>> an hourly fee for field usage instead of just a flat fee and to

>> discriminate between prime time

>>

>> and non-prime time usage to justify a difference in the charge

>> for an hourly fee . A positive

>>

>> aspect of the hourly charge is that fields reserved for whatever

>> purpose will be charged

>>

>> an hourly fee and hopefully this hourly fee will reduce the non-

>> use of reserved field time.

>>

>> A proposal was made to change the Town Building gym rental

>> fee based on resident usage

>>

>> and non-resident usage . Also it was proposed the increase

>> slightly the open gym fee .

>>

>> We also agreed that residents should be charged a lower fee than

>> non-residents for town

>>

>> beach boat rack rentals .

>>

>> A question was raised about the reason crew , basketball and

>> others are paying for the turf field

>>

>> at a 25 % rate based on their recreation fee .
