

Approved 5/19/09

Wellfleet Energy Committee Meeting, April 22, 2009, 4 pm at  
Town Hall

RECEIVED

MAY 20

TOWN CLERK

Present: Mike May, Jim Sexton, Kathy Hubby, Geoff Karlson, Drew  
Brown, Peter Stewart and Gooz Draz.

Net Metering and the 1% cap were discussed. It was decided that letters should be sent to Congressman Delahunt, Sarah Peake and Rob O'Leary to obtain their influence in the passing of laws to make use of alternate energy sources financially feasible for the municipalities. The decisions for eligibility of net metering need to be known early in the development process.

Geof sent a letter to Steven Clarke of the MA Dept. of Energy Resources, Dir. of Wind Development asking for his help in negotiations with the National Seashore and the net metering question.

Mike May will not be at Town Meeting. His sister-in-law died.

Denny will give the planning board vote for the Articles 30 and 31. Gooz will answer any questions. Anyone on the WEC may get up and talk about the article.

We went over the previous handout to update the information. Gooz will copy enough for handout this Saturday, April 25 at the Wellfleet Post Office and South Wellfleet Post Office between 10 am and noon. The handout has mock picture of the White Crest site with three turbines.

The Falmouth wind project was discussed. Their first turbine will be up and running this summer.

The minutes of the 4/15/09 meeting were approved.

The meeting adjourned at 5:05 pm

Respectfully submitted, Kathy Hubby
