Wetland Bylaws Update:

At the December 3, 2012 Concomm meeting, the Clerk was instructed to e-mail Mark Archambeault from the Nashua River Watershed Association, to ask him to attend a Concomm meeting to discuss the process involved in creating wetland bylaws for West Boylston. The Commission is interested in doing so by late 2013. Mr. Archambeault replied that he could attend our February 4 meeting. Ms. Hopkins suggested reviewing information such as MACC's bylaw model, as well as some other town bylaws received online, and at the February meeting, find out from Mr. Archambeault how he can help in the process and where they should focus in formulating the bylaws.
