

TRANSPORTATION COMMITTEE MEETING MINUTES
May 21, 2008

Attendees: Michelle Harris
Charles Greenough
Meredydd Evans, Chairman

Others: Leon Gaumond, Jr.

The meeting convened at 6:10 p.m.

The Committee discussed having CMRPC conduct the walkable communities workshop as part of our public hearing on the sidewalk master plan. L. Gaumond will speak with Jonathan Church to give approval.

The Committee established 6-26-08 at 7:00 p.m. for the public hearing. The Committee will meet on 6-11-08 at 6:00 p.m. to plan the presentation.

The Committee is in receipt of sidewalk recommendations from the School Department and Police Department.

L. Gaumond reported to the Transportation Committee that the state has been contacted to help fix their sidewalks on Rte. 12 specifically. He will keep the committee updated on this.

L. Gaumond reported that there has been a delay in the Pavement Management Program due to staff changes at CMRPC. Looks like it might be another month. We will look at this after the sidewalk program is completed.

Chairman Evans wants to discuss what to do next. It was suggested to begin to look at the Rte. 12 Master Plan and begin to implement some of those recommendations. We will revisit this after the Sidewalk Hearing in June.

Committee adjourned at 6:40.

Notes prepared by: _____
Leon A. Gaumond Jr., Town Administrator
