

**WOLFEBORO CONSERVATION COMMISSION  
DREDGE & FILL MEETING**

**September 12, 2011**

**Members Present:** Dan Coons, Chairman, Mike Hodder, Vice-Chairman, Lenore Clark, Members.

**Paul Askew  
Corner of Route 109/Waumbec Road  
TM #173-3  
Standard Dredge & Fill**

The applicant proposes to renew Permit #2006-00184 which expires January 17, 2012; noting the proposal is to impact 465 SF of poorly drained wetlands (temporary impact) for the construction of a 3 bedroom house.

**The Wolfeboro Conservation Commission noted no objection to the Paul Askew Standard Dredge & Fill application, TM #173-3.**

**Joshua Swidler  
68 Sewall Road  
Lake Winnepesaukee  
TM #217-138  
Permit By Notification**

The applicant proposes to rebuild existing 10.5'x42' crib dock in kind to include two new cribs and install 2 PWC seasonal lifts.

**The Wolfeboro Conservation Commission noted no objection to the Joshua Swidler Permit By Notification application, TM #217-138 however, notes there is no evidence the structure is grandfathered.**

**Joseph & Barbara Hudson  
39 Winterhaven Road  
TM #186-27  
Special Use Permit**

The applicant proposes to construct a single family dwelling, attached garage and porch within the wetlands buffer.

**The Wolfeboro Conservation Commission noted no objection to the Joseph & Barbara Hudson application, TM #186-27; noting it appears the applicant has done the best job possible placing the house so as to minimize buffer impacts with the house placement. The Commission noted the driveway may be able to be designed to further reduce impacts by moving the entrance to the northeast and curving it towards the garage, rather than approaching it straight on.**
